REMARKABLE POINTS ON THE MARKET

The market gained after 2 drops in a row. VN-Index opened with a strong negative gap and dropped by 13 points in the morning since selling pressure from pillar groups, but the index started recovering when moving to reference and closed with a light gain. The market was nearly balance as it leaned only slightly on gainers. The pressure came mainly from banking pillars. Meanwhile, some other pillar groups recovered positively at the end, like steel, real estate, securities, and oil. For midcap and penny groups, standing out was the gain on rubber and Viettel. The liquidity increased strongly from yesterday and surpassed average.

TECHNICAL POINT OF VIEW

In technical term, VN-Index gained again. The volume increased to above 10 and 20-session average, showing positive cash flow. Not just that, the index closed above MA5, and MA5 still differentiated positively from MA20, showing that recovering trend is still there. Moreover, +DI stayed above -DI and RSI tended to increase to 62, showing that gaining trend is still there and the index might move to sentimental level of 1,300 points. For HNX, HNX-Index saw similar situation. It saw another gain and stayed above MA5, and MA5 still differentiated positively from MA20, showing that recovering trend is still there, and the index will soon move to challenge sentimental level of 250 points. In general, the market is still on recovering trend after the gain on April 2. Therefore, investors might take short-term surfs. In which, having priority on good-fundamental codes with positive business prospect that can attract strong cash flow.

Recommending code: Buy HDG, DGW
