

VIETNAM MACROECONOMIC IN 11M/2021

Release on: 15/12/2021

An optimistic economic outlook despite impact of the pandemic

- *Industrial production recovered thanks to the manufacturing industry*
- *PMI inched, labor shortage hindered expanding production*
- *Purchasing power continued to improve*
- *CPI rebounds after 2 consecutive months of decline*
- *Imports suddenly surged, the trade surplus was still maintained*
- *Foreign investors remained upbeat about Vietnamese market*
- *Public investment aimed at the highest possible disbursement rate*
